

Medianav - procédure de reset du device

Soit l'utilisateur a accès à son device (non bloqué) et peut tenter un factory reset via l'interface système

Template

In the main menu, press the "Settings" menu

Once in the "Settings" menu, select the "System" tab then press the "Factory Settings" submenu.

Check the part for which you want to delete the parameters, in our case check "Phone-Smartphone".

Press OK to validate the reset request.

En cas de doute, partagez l'image ci-dessous au L1 pour clear le cache du device et forcer le reboot

Procedure available for SW 1.0.12.8 and newer

The reset procedure clears the temporary memory and reboots the MediaNav unit.

No information is lost from your MediaNav.

To reset your MediaNav unit follow the steps below:

1. Start the car engine
2. Make sure the unit is ON
3. Press and hold the ON/OFF button until your device restarts and the Start-Up Logo appears
4. This can take more than 10 seconds.

Please refer to your On/Off button according with your MediaNav type:
